Pinterest Project Board Posting Guidelines

Instructions:
Once your topic is approved, you may begin creating boards on your Pinterest account.
Please see the link to my board here for examples of items to pin for your project.

• Each board should relate directly to/illustrate topics included in your group's proposals, under "Relevant Issues."

• Each person in your group is responsible for pinning 10-15 relevant items, including a description/summary for each item (see "Grading" below for details). Within your groups, each member must include his/her name in the title of the board.

• At least half of your pins must be from **academic/scholarly sources** (ex. academic journals, books). This means that you must have **AT LEAST 5** academic/scholarly sources per board/person.
        *****Note: If you find that you are having difficulty pinning academic/scholarly sources, you may submit a Word document via the "Pinterest Sources" Dropbox folder PRIOR TO the due date that includes the following:
        -a link to the academic/scholarly source
        -the title and author(s) of the source
        -a 2-3 sentence summary of the source

• Each pin must include a 2-3 sentence summary of the link you've pinned to receive credit.

Note: Your topic **MUST** be approved before you begin your project.

Grading:
Individual members will be graded based on the following criteria:

• Number of relevant pins (you must have AT LEAST 10, no more than 15, per person, including 5 academic/scholarly source pins)

• Two to three sentence summary for each pin that explains:
        -Why is this relevant to your group's topic? To this specific board?
        -What does this item illustrate?

• Grammar, spelling, punctuation
Your summaries, board titles, et cetera are to be written in a professional, academic tone. You are not writing to your peers; please do not employ slang or "text message" jargon in your posts.

• Did you include your name on your individual board?
Failure to include your first and last name on your board will result in an automatic letter grade deduction from your final project grade.

This portion of the project represents 50 percent of your total project grade.
Your group's Pinterest Project Proposal grade comprises the remaining 50 percent of your total project grade.

<div align="center">**Pinterest Project Board Posting Grading Rubric**</div>

This portion of the project represents 50 percent of your total project grade.
Your group's Pinterest Project Proposal grade comprises the remaining 50 percent of your total project grade.
